

Feb. 26, 2010: Week in Review

Reported By: The Hal Lindsey Report:

On this week's edition of "The Hal Lindsey Report," Israel introduces its newest battlefield weapon: the Heron TP drone. As I've reported before, the Israelis have led the way in developing unmanned machines for combat. This newest drone is the largest unmanned aircraft in the world. It has a wingspan the size of a Boeing 737. It can stay aloft for 20 hours and can reach the Persian Gulf -- including Iran. Do I feel the plot thickening?

The day after the Heron's debut, Iran's vice president announced that his nation would begin building two new uranium enrichment facilities within the next few months. He said they would be equipped with the newest enrichment centrifuges. That means more highly enriched uranium... faster. He also informed the world that the new facilities would be built 'inside' mountains. It's as if Iran's mullahs are daring Israel and the world to do something to stop them before the new facilities are built. Otherwise, the West will have to use nuclear bunker-buster bombs to stop them after they're built. Yes, I'm certain I feel the plot thickening!

You know, it's funny that I've heard very little from the mainstream media and even less from the Obama administration about a Department of the Interior/USGS report that was released in April of 2009. In the report, the United States Geological Survey (the government's official estimator of recoverable oil and gas resources) revised its 1995 estimate of the oil capacity of the Bakken Formation. The Bakken Formation is a crude oil deposit that lies under portions of North Dakota and Montana. In 1995, the USGS estimated that there were 151 million barrels of oil in that deposit. However, due to improved forecasting techniques and recovery equipment, and the increased market value of crude oil over the last 15 years, the USGS re-evaluated the data and revised its estimate. It now says that the Bakken Formation will yield 3.65 BILLION barrels of oil -- a 25-fold increase! And with the 1 to 2 TRILLION potential barrels of shale crude from the Green River Region of Colorado, Utah, and Wyoming, some experts say that America's energy independence would be assured for the next two centuries!

So why is the government and its media allies sitting on this information? Why are they allowing our nation to stay under the thumb of Saudi Arabia and other hostile oil-supplier regimes in the Middle East? Why is President Obama guaranteeing \$2 billion to a Brazilian oil company to develop off-shore wells to recover oil to sell to China, yet not spending a penny to develop our own domestic resources? (The answer to the latter question may be obvious: George Soros, who poured \$120 million into Democratic campaigns in 2008, is a major shareholder in the Brazilian company.) Let me give you a hint: so the chill of global warming will linger until a new crisis can be developed to drive us to our knees and make us ready to join a one-world government.

The President recently appointed Rashad Hussain to be the US envoy to the Organization for the Islamic Conference (OIC). The OIC is an organization of 57 states and non-state groups dedicated to the promotion of Islam throughout the world under the guise of governmental cooperation. It is an anti-democratic organization that believes (according to its charter) that human rights throughout the world should be subject to Sharia Law.

President Obama thinks that Hussain would be a great choice to represent the US since he has memorized the entire Koran in the original Arabic. Now, to my way of thinking, if a guy is dedicated enough to memorize the entire Koran in the original Arabic, that means he must be a pretty dedicated Muslim. Who better to represent a Christian nation to a group of Muslim nations who want to subject us to Sharia Law? Apparently that makes sense to our President.

Oh, did I fail to mention that in 2004 Hussain publicly characterized the government's prosecution of an admitted supporter of a Palestinian terrorist group as an example of "politically motivated persecutions." Then he lied about saying it until he finally had to recently admit that he did say it and then lied about it.... You get the picture. But that apparently doesn't matter in this new era of 'transparency' in our government. Hussain has Obama's confidence and he's going to guard our interests with the OIC.

And here's another story that will probably shock you. Or not. Apparently it will come as news to the US State Department. The Palestinian Authority continues unabated its incitement of hatred against Israel and the Jews. This week, I'll share a couple of items that have been recently playing on the Palestinian Authority's TV station and another that's on the Hamas TV airwaves. These propaganda pieces illustrate dramatically the differences between Islam and Christianity. (end report)

Bro Stef's Comments:

Friends, all of the events that the Prophets have talked about are now coming to pass in this generation. As I write this report, we have had earthquakes in the U.S., Japan, China, Haiti, and Chili. The Middle East is a powder keg that is ready to ignite with Iran, Russia and the radical elements within the Arab communities pushing for the destruction of Israel. China has setup camp in the Middle east now ([Article here](#)). The world is in the Middle East just as Revelation said.

The books of Joel, Zechariah, Ezekiel, Daniel, Isaiah, Jeremiah, Matthew, Luke and Thessalonians are providing a multitude of evidence that can't be ignored any longer. The world has entered the era of "One World Globalization" and I believe we will live to see the call of Yeshua, Come Up here! in this generation.

My friends, whatever you do - Keep Looking Up and Keep Trusting In Yeshua Our Messiah...

Shalom v'ahava b'Yeshua HaMashiach

(Peace and love in Yeshua The Messiah),

Jan. 19, 2010: It's Time to Pray

The People Of Haiti Need Our Prayers. It's time to do what our Messiah would do, PRAY!

My friends, the world is falling apart. There are those complaining about Bible verses being inscribed on the butt end of military rifles. Our kids are killing themselves in our schools, the natural affections of human beings are corrupted, men and women can not remain true to their marriage vows, the divorce rate is sky high, we hate God, we hate anything that is of Him. Now we are faced with the realities of what can happen in a moment in a twinkle of the eye, a nation can come to nothing.

Let's put off the cares of our lives for a moment and pray for those who are less fortunate than we are and God to perform the miracles of miracles, save their souls!

Words of Jesus in Luke 13 make the most sense. When a tower fell and many died, Jesus stated, "Do you suppose that these Galileans were greater sinners than all the other Galileans, because they have suffered such things? I tell you, no; but except you repent, you shall all likewise perish" (Luke 13:2-5).

This is another wake-up call and another "birth pang" predicted in the Bible. As the day draws closer to our Lord's return, events like earthquakes are going to intensify. The contractions are growing more frequent and they will continue to grow in severity as the Day of Our Lord approaches.

And this may be a message for some of you. **A "tower" could fall on you and you may have wished you had repented.**

Pray that the people of Haiti will accept the truth of the gospel of Jesus Christ while there is still time. It is a Catholic-and-voodoo-led nation. Only God can break the chain of wickedness that seems to be associated with that oppressed land. Reports said that true believers in Haiti, not affiliated with any of the darker practices, were praying this could turn the nation around spiritually. Others were rethinking their voodoo and dark magic practices.

Oh how our God specializes in bringing good out of tragedy. Let's ask Him to do His miracle right now in this situation. Lord Yeshua (Jesus) bring this people to the saving knowledge that you are the Messiah and that you died for all of them all. Amen...

Please pray for this Missionary Prayer Request!

Dear Ones,

- (1) No one has died among our leaders and all churches seem to be intact.
- (2) There are many dead in MFM family...10 in one good family at Lamaar
- (3) Many, many are hurt bad and there are not enough doctors. Many are going to Laboul for help from our mission doctor, Dr. Charles. He is having to do things that he is NOT qualified to do.
- (4) NO gas in many places. Dad was able to get 2 gallon this morning but it was VERY high. NO diesel for electric. But hopefully we will get some tomorrow.
- (5) There is still LITTLE food, but VERY HIGH!! Have about two weeks supply for all on the compound. That's if people stop coming and asking for food. Can't not give to them, everyone is hungry. T'Luke and his family are on their way here; their house fell in on them in PAP. Luke is hurt but not too bad. T'Luke and his wife were raised in the orphanage and now have 5 children and still love Jesus. They along with many more of our people are coming and we can't turn them away.
- (6) Things are so BAD and getting worse: all the American Missionaries that Dad knows over here are trying to get out. By the prayers of our American Christians we are able to stay; these people need us now more than ever before.
- (7) Buildings and walls are so bad; David worked 40 people today. Full report later.
- (8) Please send out all the SOS for help. If our money runs out it will be a fearful thing.

We all still love Jesus and know He is able to handle everything.

Blessings,
Richard and David Turner

Until next time... Keep looking up!

Then those who feared the Lord spoke to one another, And the Lord listened and heard them; So a book of remembrance was written before Him For those who fear the Lord And who meditate on His name. AMEN! **Malachi 3:16**

Jan. 13, 2010: Mysticism On The Rise

I have inserted an important link to an article that deals with the falling away of believers. Christians at an alarming rate are yielding to the Devils deception that there are many paths and ways to God. Just today I had a discussion with a long time friend, who is Mormon, who is now very interested in meditation and Buddhism. That was a shocker. I've known this person for over 20 years!

The Word of God warns us that in the last days we will see a falling away and I believe we're now seeing it. [2 Thessalonians 2:1-8]

Next time we'll talk about, what does China's new military move into the Middle East mean for us today?

Until next time... Keep looking up!

Jan. 1, 2010: Israel Strikes Oil

Our first post of 2010 has to be this one, "**Israel strikes oil!**"

Headline: [Click Here](#)

What does this mean for Israel? Well, the Russian - Persian Alliance will not be happy with this news especially if Israel can begin to compete in the sale of oil to countries like the U.S. We have discussed this in times past and have warned that this day was coming!

Could this be the spoil that Ezekiel 38 - 39 talks about? We will have to see, but what a way to start off the 2010 Prophetic year.

Take a minute and watch the video provided as well. Very interesting indeed. We are seeing all the pieces come together exactly as the Bible outlined. What a time to be alive!

Keep Looking Up The Lord is Returning Soon,

Bro Stef
