

Work from Home

Turn a household expense into an income

- **No selling products**
- **No hounding friends**
- **No deliveries**
- **No inventory**
- **No collecting checks**
- **No RISK**
- **GUARANTEED**

If your favorite store offered you cash back when someone you simply referred became a customer, could you see the chance to earn your products for free? If there was an opportunity for residual income, with a company that has a proven track record and is so confident in the quality of their products they offer a 4 to 6 month 100% money back guarantee. Is there any reason why you would not want to hear more?

We are all simply customers. Our company has chosen to reward us with residual commissions on referrals instead of spending millions on national advertising. This is a must see.

Imagine earning an income for simply buying your common household products somewhere else. Guaranteed products that are better than what you are currently using, safer, cost less, out perform and they pay you for referring customers. Is the security of financial freedom worth switching stores?

Toxic Product Awareness

Help protect your family against serious illness

Scientists and doctors are discovering that there is a connection between our increased use of household chemicals and the increase in chronic illnesses in children like cancer, asthma, ADD, birth defects, and a host of other problems.

There are more than 3 million poisonings every year. Household cleaners are the #1 cause of poisonings in children.

Since 1980, asthma has increased 600%. Common household cleaners and cosmetics are triggers of asthma attacks.

Even when your products are safely locked away, the residue and airborne particles from regular use can cause serious health problems.

The only way to prevent poisonings and side effects from harmful household cleaners and cosmetics is to replace them with non-toxic, non-carcinogenic, safe cleaners.
