

February 03, 2006

Dear Karlyn,

I thought I would put pen to paper and write on this subject for anyone who has, was, or is going to be experiencing Melaleuca like I have!

Let me start from the beginning. I joined Melaleuca for a family member, just to help him. That was about 5 years ago, however I ONLY ordered the minimum 35 product points a month because that was all that was required of me...until now.

One day I received a friendly call from the Inspire support line to see if I was enjoying my products, the company and could they assist with any questions I might have. I told you, "I ONLY ordered the minimum 35 product points." Well Karlyn, when you said, "NO YOU DON'T!" That shocked me. When you explained further, you really got me thinking. When you asked me to test drive what you were saying for the next 4 to 6 month and get back to you with my findings... I decided to do just that!

You see, the minimum requirement is just 35 product points, yet that was not what I was **really** using! I was buying just the 35 product points from Melaleuca and then going to the "store" and buying allot more of **inferior** products. To date I have learned I was also wasting more money, gas and time!

I finally got it! The light is now on!

I had been using all these products over the years and I have finally replaced my entire home with Melaleuca products as well as use all the nutritional products. I have truly gotten the toxins and poisons out of our home and now I shop through Melaleuca like a real store, "**my store**".

I start each month by ordering my basic nutritional products, the Daily for Life vitamins (with out Iron), so I do need to order NutraView, Replenex, EstrAval, along with my FiberWise, Simply Fit and Access Bars. Then I simply add whatever else I need or am going to need to order for that month too. I have learned to order in packs of 2, so if I'm running low on a certain item I know to replace it the next month so I don't run out. If I need something I am now willing to order 2 or 3 times in any given month! I realized I went to the store more than once a month, which certainly cost me more in time and gas to do that... so why not **Melaleuca**? Now it all **makes sense**!

Now that I feel the difference in me, see how having a toxic free home has really helped the health of those in my household and understand how this program is designed to work... I see that I have been using more than what I thought I was and anyone can do JUST 35 points!

It has been a little over 5 months now and I wanted to write out the results of the challenge you put to me. I want to extend a note of thanks and gratitude for you call and assistance.

There is more... in my excitement of the results, I shared this with a few people who also told a few people and you were right. The benefits, well, I am not paying for my products, as a matter of fact I feel as if I get paid to shop.

I can not thank you enough for going the extra mile with me. Karlyn I am so grateful, please feel free to share my results when ever you feel it necessary or if you meet another person like me. (LOL) I am sure there are more of me out there, who are open to the challenge of wanting to be right so bad, they too will discover what I have and it will save them much more in the long run to discover this sooner than later.

Thanks for letting me share my story.

A happy healthy Melaleuca customer,  
Sharon
