

Dear

I am contacting you to let you know I have become a part of a 20 year plus company called Melaleuca. Melaleuca has developed a complete line of unique, high-quality natural products for your home and personal use that promotes a better, safer and health way of living.

They manufacture just over 300 products that we all use in our homes everyday. Everyday products like soap, shampoo, deodorant and toothpaste – to a men's line of skin care and cosmetics for women – to vitamins, mineral supplements and pain relievers – to EcoSense home cleaning products and much, much, more – each Melaleuca product is scientifically designed to out perform as it improves the well-being for you and your family. These products are free from harmful chemicals, pollutants and out perform any of those other grocery store brands.

Melaleuca is a consumer direct marketing program, which simply means whatever you and your family consume, you reorder direct form them and they drop ship it right to your door via UPS. To be a preferred member it is a one-time low membership fee of just \$29 to join and a yearly renewal of \$12. Preferred customer members are entitled to a 30 to 40% percent discount off of the retail prices on all product purchases. (Located in the PC brackets)

Better still, preferred customers get an advantage account; when products purchased by the 15th of the month 10% of is placed into this advantage account and when the account is over \$20 you get to shop from it. The advantage dollar program is a nice bonus and added benefit to be a preferred customer with Melaleuca.

What's more, the preferred member prices are far less expensive per use than other store brands and come with a 100% satisfaction money-back guarantee. That is a risk free offer. I want to invite you to take a closer look. Maybe allow me to enroll you so you can take a 4 to 6 month challenge, get you and your family started on a new healthier lifestyle.

Today, we are becoming more aware of health issues and working to become healthier. It's a great time to promote better healthier living at a cost you and your family can truly afford.

Enclosed is catalog of some of the Melaleuca products for you to see. Interesting in finding out more on the internet... take a minute to see: www.trends2000.net/splash . Do you know someone or if you would be interested in finding out more about the company, its products or on becoming a member of Melaleuca, please contact me direct. I will be happy to answer your questions.

Imagine... not spending any more then you already do, buying products you need and use, that can help improve your health and wellness, while protecting our natural environment. Not to mention the tax savings and benefits this offers you. It is true and you can be a part of it.

I hope you will share in my enthusiasm for a company that helps improve our over all wellness, health and the safety of our planet.

Sincerely,

An Excited Melaleuca Customer
