### **IF YOU EXPECT TO SUCCEED, YOU WILL SUCCEED**

The dreams you choose to believe in come to be.  
When you feel in your innermost being  
that you will achieve what you set out to do.  
When you open the way for miracles to happen they do.

Choose to believe something good can happen and it will.  
Expecting it to happen energizes you, your goal  
and actually gives it momentum.  
What you expect to happen happens.

If you look for the good you will find it!  
Look for the bad, you can find that too.  
Life responds to your outlook.
