News Alert Class: 1st Quarter Review

Bro Stef's Commentary:

Can you believe it...the first quarter of the year is gone and behind us already? I've made it a tradition in our reporting to provide an overview of the Prophetic "End time" landscape on a quarterly basis.

When I survey the first quarter in 2006, it certainly seems to me that the Prophetic scene is running at full speed, the pedal is to the metal for sure. Let's just take a minute and review. By the way, just look at **some** of the headlines I have listed below, they reveal just what's happening around the globe and how the Bible is being fulfilled on a daily basis.

Let's Review The 1st Quarter Issues That Face Us:

1. War between the West and Islam
2. The battle lines have been drawn, those who support the radical terrorists and those who don't
3. U.S. is developing insect cyborgs that are equipped with chips that can radio information to headquarters. In effect they are tiny robots that can spy on the enemy.
4. Canada is experiencing warmest winter since 1948
5. Bird flu found in Israel
6. Russia sides with the Islamic countries against the West.
7. Monster Hurricanes and now Tornados. Earthquake incidents are off the charts.
8. Hamas now operates the Gaza Strip within Israel's borders.
9. Iran opens embassy in Palestinian Territories.
10. Iran is building up it's military and missile delivery systems at a feverish pace.
11. Iran most likely posses a nuclear device or bomb.
12. U.S. prepares for conflict with China
13. At least 38 new killer human pathogens have emerged over the last twenty five years and three quarters of them came from animals.
14. The American Association for the Advancement of Science says that pathogens are multiplying at a rate that is too fast to be supported by an evolutionary time scale. In other words, what our Lord said would happen in Matthew 24 with the spread of pestilence is happening now.
15. Sexual immorality is on the rise at levels never seen. Our kids are at grave risk!
16. The U.S. and Europe are coming apart at the seems due to internal conflicts with it's politicians and citizenry.

All of this has been in the news in the first quarter of this year. I could go on listing the evidences that point to the soon return of Christ, but, I think this list makes the point. Just consider that this is only the **birth pangs**. I'm not sure I want to be around to see the actual events of the Tribulation. The events we are seeing at play now are bad enough. The good news is, soon all of this will come to an end. The day is fast approaching that our Lord will put an end to all of this madness! It's high time to be ready to meet God, because He is coming and I believe His coming will be very soon.

In The News:

High resolution satellite images may have detected evidence of Noah's Ark in Turkey...

April 5, 2006

A group made up of scientists and adventurers are trying to get permission from the Turkish government to visit Turkey's Mt. Ararat to investigate what was spotted in high resolution satellite images taken last year at the height of a record warm summer. Images of what they claim to be the remains of the Biblical boat, Noah's Ark.

A Honolulu business man, Daniel McGivern, the leader of the group says that he is convinced that these new photos unequivocally show a man-made object, that if excavated and tests are run on any collection of samples, will prove that it indeed is Noah's Ark. McGivern says that the expedition to Turkey's Mt. Ararat has not taken place because the government of Turkey will not issue a research visa, which McGivern says, is sad, but it is their country.

Jimmy's Prophetic Prospective on the News

As the search goes on for the remains of Noah's Ark on Mt. Ararat in Turkey from some 4,500 years ago, Bible prophecy refers to Noah's Day as an indicator of the time of the Return of Jesus Christ. Many teams have traveled to Turkey's famous Mt. Ararat in search of the biblical boat called Noah's Ark, all to be confronted by failure.

One such team was headed by a dear friend of mine, the late astronaut, Jim Erwin, who did believe that the remains of Noah's Ark could and one day would be found in the area that the Bible records was the landing site of the boat after the world-wide Flood 4,500 years ago. Different team leaders in search of Noah's Ark have conflicting ideas as to the actual location of what may be left of the boat, and no one has been successful yet in the search for Noah's Ark. However, as these scientists and adventurers continue to search, Bible prophecy refers to Noah's Day as an indicator the times in the Last Days that will mark the return of Jesus Christ to the earth.

Matthew 24:37 is a record of what Jesus had to say about this subject 2,000 years ago. He said, "As it was in the Days of Noah, so shall it be when I return to the earth". After the Ark landed, Noah and his family actually ended up living in Babylon where Noah's great grandson, Nimrod, was a king of all of human kind in that day. Genesis 10-11 reveal to us that Babylon then is Iraq today.

As it was in the Days of Noah, the focus of the world was on Iraq, as it is today. Bible prophecy will be fulfilled and maybe very soon.
